Men in Great Cities. St. Louis, April 7 .- The Rev. T. De Witt Talmage, D. D., of Brooklyn, preached here this evening to a vast Slaughter," and his text, Proverbs, vii, 21: "As an ox to the slaughter."

The eloquent preacher said:

There is nothing in the voice or manner of the butcher to indicate to the ox that there is death ahead. The ox thinks he is going on to a rich pasture field of clover, where all day long he will revel in the herbaceous luxuriance; but after a while the men sticks and stones and shouting, and drive him through bars and into a doorway, where he is fastened, and with a well aimed stroke the ax fells him; and so the anticipation of the redolent pasture field is completely disappointed. So many a young man has been driven on by temptation to what he thought would be paradisiacal enjoyment; but after a while influences with darker hue and swarthier arm close in upon him, and he finds that instead of making an excursion

an ox to the slaughter.' I. We are apt to blame young men for being destroyed when we ought to blame the influences that destroy them. Society slaughters a great many young men by the behest, "You must keep up appearances; whatever be your salary, you must dress as well as others, you must wine and brandy as many friends, you must smoke as costly cigars, you must give as expensive entertainments, and you must tive in as fashionable a boarding house. If you haven't the money, borrow. If you can't borrow make a will only have to make the deception will be the wiser. You yourself will not be damaged." By that awful probeen slaughtered for time and slaugh-

But there are two kinds of borrowed money. Money borrowed ciplined at the church. They want is sometimes borrowed money. Money borrowed ciplined at the church. They want is sometimes are two kinds of borrowed money. ing wrong about borrowing money. for the purpose of starting or keeping up legitimate enterprise and expense, and money borrowed to get that which you can do without. The first is right, the other is wrong. If you have money enough of your own to you borrow money for a dandy's outfit, you have taken the first revolution of the wheel down grade. Borrow for the necessities; that may be well. Borrow for the luxuries; that stips your prospects over in the wrong

The Bible distinctly says the borrower is servant of the lender. It is a bad state of things when you have to go down some other street to escape meeting some one whom you owe. If young men knew what is the despotsm of being in debt more of them would keep out of it. What did debt els for Lord Bacon, with a mind towgaing above the centuries? It induced nza to take bribes and convict himself as a criminal before all ages. What did debt do for Walter Scott? Broken hearted at Abbotsford. Kept him writing until his hand gave out in paralysis to keep the sheriff away from his pictures and statuary. Better for him he had minded the maxim which he ad chiseled over the fireplace at Ab-

botsford, "Waste not, want not." The trouble is, my friends, the people do not understand the ethics of going in debt, and that if you purchase goods with no expectation of gaying for them, or go into debts which you cannot meet, you steal just so much money. If I go into a grocer's store, and I buy sugars and coffees and mests, with no capacity to pay for them and no intention of paying for them, I am more dishonest than if I go into the store, and when the grocer's face is turned the other way I fill my pockets with the articles of merchandise and carry off a ham. In the one case I take the merchant's time, and I take the time of his messenger to transfer the goods to my house, while in the other case I take none of the time of the merchant, and I wait upon myself, and I transfer the goods without any trouble to him. In other

It says: The total expense of cultivating an acre of grapes is \$15 the curing and packing of an acre of grapes, making 100 boxes of raisins, \$55. The average price of raisins for the last four years has been about \$1.60 per box. Putting the price at \$1.50 per box for the four grades, we have a total net profit of \$95 an acre. But to convey thoughts without speech, to speak without words is another matter. Perhaps the most curious example of this form of ingenuity-either in fact or fiction-is the means by which the paralytic old Noirtier, in "Monte Cristo," was able to speak to anybody who understood his system. He, it will be remembered, had sight and hearing left to him, and he expressed approbation by closing his eyes, his refusal to any proposal by winking them several times, and if he had some desire or feeling to express he raised them to heaven. By this code, together with the aid of a dictionary so arranged that he could see a page as a finger was rapidly run down it, he contrived to hold converse on any
